NOTICE TO RESIDENT

Our company is currently working for the Town of Pittsboro on a sewer rehabilitation project. As part of this project we will be replacing sewer mains and services within the road right-of-ways. There will be several phases of work as part of this project – you will be notified before each phase. The first phase is cleaning video inspection of the sewer mains in front or beside of your house prior to major repairs.

What to expect: Our work will include opening manholes and cleaning sewers with a vacuum / jetter truck and inspecting sewers with special video cameras.

This phase is very quick and non-disruptive. There is no need to alter your water or sewer usage.

Work will begin on November 14, 2016 at 7:00 am. Should you have any questions or concerns please contact one of the following representatives
