Subject: Proposed EV Charging Infrastructure Support Project

This letter documents [organization name]'s potential interest in participating in the proposed Duke Energy EV Charging Infrastructure Support Project should the project become available. This project, as proposed, will significantly offset the costs associated with the installation of charging infrastructure at our locations to support plug-in electric vehicle (PEV) charging and we look forward to formally applying in the near future.

To assist with your planning, we are providing some additional information.

Organization Name	
Preferred Contact Person	
Title	
Phone Number	
Email	

As a preliminary estimate, our organization would be interested in installing [x] individual charging stations based upon the current proposed guidelines. Below is a list of the locations we are considering:

	Site Name	Location	Type of Facility	Desired # Charge Ports
1				
2				
3				
4				
5				
6				
7				
8				

Our organization believes the above location(s) align with the project intention of enabling greater access to longer dwell time charging for PEV drivers and will be reasonably utilized for the following reasons:

(e.g. what will drivers be doing while vehicles charge, current evidence of need, etc.)

Optional - To assist Duke Energy in refining the final offering, we are providing the following feedback and/or concerns related to the conditions and structure of the project:

Optional - As additional background, our organization is interested in installing electric vehicle charging infrastructure in order to facilitate the following objectives and/or needs:

We appreciate the opportunity to provide our thoughts and level of interest towards this important project and look forward to future discussions. Furthermore, we understand that this letter does not obligate us to participate in the program if it becomes available, nor does it obligate Duke Energy to offer the program to us.

Sincerely,

[Individual/Organization]
