

MEMORANDUM

TO: Mayor and Board of Commissioners

FROM: Bryan Gruesbeck, Town Manager

SUBJECT: Electric Vehicle (EV) Charging Infrastructure Support Project

DATE: July 25, 2016

Background: Duke Energy is soliciting Letters of Intent (LOI) from communities who are interested in installing Electric Vehicle (EV) charging stations. Money would be paid to participating entities via 100% reimbursement. Attached please find project information from Duke Energy. Also attached please find a template for an LOI.

Insofar as an LOI doesn't commit the Town to the project, this is a relatively low risk endeavor and may be worth consideration.

If you are interested in pursuing the funding, I would suggest a quick evaluation of potential charging locations in advance of completing and submitting the LOI to Duke Energy.

Action Requested: Discuss and direct Staff as appropriate.
