

# **Information about Pittsboro UDO Technical Advisory Committee**

## **Description and Purpose of UDO Technical Advisory Committee**

The Pittsboro UDO Technical Advisory Committee is a 8-10 member group to be appointed by the Pittsboro Board of Commissioners, for the purpose of providing input and advice to Town Staff and the UDO Consultant Team on the UDO initiative.

The general responsibilities of the Committee will be to assist the Town Staff and Consultant Team in identifying regulatory issues that need attention, the overall goals for the project, and to review project work products and provide feedback.

The Committee will not be a voting body, and will not be making recommendations as a group. It is expected that the Committee will be available for advice and feedback during the period while the new UDO is being developed.

## **Membership of UDO Technical Advisory Committee**

It is the intent that the Committee be made up of persons living and/or working within Pittsboro's planning jurisdiction, who have (1) knowledge about development issues and the Town's land use regulations, and (2) general knowledge about the Town of Pittsboro.

## **Expectations for UDO Technical Advisory Committee Members**

It is expected that the UDO Technical Advisory Committee will meet 4-8 times during the projected 18 month life of the project. In addition to review of work products, Committee Members will be asked to communicate with their constituencies to assist the Town in its efforts to keep community members informed about the UDO process and opportunities to provide suggestions.
