PRESS RELEASE
FROM
PITTSBORO TOWN MANAGER CHRIS KENNEDY

**UPDATE #7: CITY OF GREENSBORO 1,4 DIOXANE DISCHARGE,
IMPACTING PITTSBORO’S PUBLIC DRINKING WATER SYSTEM**

The Town of Pittsboro is now in receipt of the raw water and finished water sample results taken by Town staff through November 24, 2021. The latest results are highlighted in the chart below.

The raw water sample results are continuing to show diminished 1,4 dioxane concentration levels, now well under the EPA’s Drinking Water Health Advisory Level. The improvements in the raw water quality will eventually result in improved concentration levels in the finished water circulated in our distribution system. Town staff will continue sample and we will report the results as soon as they become available.

For reference purposes, the EPA’s Drinking Water Health Advisory Level of 35 ug/L based on a 1 in 10,000 cancer risk for lifetime exposure.
